Our Single Screen Dashboard
Removes Chaos from Project Management

The Hitask Single Screen Dashboard allows you to see all of your tasks and collaboration tools in a single window, including your projects, tasks, calendar, and project team members. Click on individual tasks to expand and modify them. Use drag-and-drop to assign or modify tasks.

The video below will show you just how easy it is to setup and manage your projects using Hitask.

We designed a branding and promo website for the HiTask, an easy-to-use task management app for the teams.

[Visit website](#)

A complete product design and development for a large international art marketplace that allows artists and galleries to sell their art online and art aficionados to quickly find what they admire. We provided UX and UI design and implemented the front-end code and back-end programming based on the Symfony framework.

[Visit website](#)

The screenshots illustrate the user interface of the Realty4Sale website, featuring a dark-themed design with red accents. The top navigation bar includes links for 'АРЕНДА' (Rental), 'ПРОДАЖА' (Sale), 'АРЕНДНЫЙ БИЗНЕС' (Business Rent), 'ТОРГОВЫЕ ЦЕНТРЫ' (Shopping Centers), 'ИЗБРАННОЕ' (Favorites), and 'ПРОСМОТРЕННЫЕ' (Viewed). The main search area allows users to filter by location ('Укажите метро, округ, район, улицу'), area ('площадь'), and price ('стоимость'). Below this, a section titled 'РАНЕЕ ВЫ ИСКАЛИ' (Previously Searched) displays recent search history. A 'ПОДСЧЕТ' (Count) section shows 42 rental offers. The bottom section, 'ВЫ УЖЕ СМОТРЕЛИ' (What You've Already Viewed), lists previously viewed properties with their names and prices.

Property Detail Screen:

A detailed view of a property listing for 'ПОМЕЩЕНИЕ 30,1 М²' (30.1 m²) located at 'Большая Никитская улица, 5'. The listing includes a map, contact information ('+7 495 266-73-25'), and a 'ЗАЯВКА НА АРЕНДУ' (Rental Application) button. The right sidebar provides options to 'РАСПЕЧАТАТЬ ПРЕДЛОЖЕНИЕ' (Print Offer), 'ОТПРАВИТЬ НА ПОЧТУ' (Send via Email), and 'ПОДПИСАТЬСЯ НА ИЗМЕНЕНИЯ' (Subscribe to Changes).

Floor Plan:

A detailed floor plan diagram showing room dimensions and layout for the property at 'Большая Никитская улица, 5'.

Search Results Screen:

A search results page for 'АРЕНДА КОММЕРЧЕСКИХ ПОМЕЩЕНИЙ В МОСКВЕ' (Commercial Premises Rental in Moscow). It shows a grid of property thumbnails with details like address, price, and area. A sidebar on the left allows filtering by 'Расположение' (Location), 'Тип помещения' (Type of Premises), 'площадь' (Area), and 'стоимость' (Price).

Realty 4 Sale is the leading provider of street retail solutions for business and investment purposes in Moscow. The company approached us to develop a sophisticated real estate catalogue with various search and filtering scenarios, object dependencies, and custom features. We produced state-of-the-art UX and front-end development and implemented a robust back-end system based on Symfony framework.

Tasky

The screenshots illustrate the Tasky platform's user interface:

- Service Catalog:** Shows categories like Courier services, Repair, Cleaning, etc., with counts of 10,807, 8,409, 1,073, 3,902 respectively.
- Provider Profiles:** Displays profiles for various service providers, including their names, ratings, and recent activity.
- Task Details:** Shows a specific task for a "Design-project for 3-room apartment" with a budget of 200 €, due by September 30, and a message from the client.
- Task Creation:** A detailed view of a task titled "Design-project for 3-room apartment" with budget, deadline, and location specified.
- Task Submission:** A form for providers to submit their own offers for the task.

Tasky allows consumers to buy professional services by asking for bids and selecting the best offer, or by navigating the service provider catalogue, reviewing the ratings and portfolios and picking those they like the best. The service providers may build and maintain a tremendous personal page, find prospects, and receive payments on time.

The screenshot shows a promotional offer on the Bite website. The offer is for 'Bite Unlimited Internet + Xbox One X 1TB'. The price is listed as 21,50 € / mon. Below this, there is a section titled '1. Select your plan' which lists three options: '200 GB' (21,50 € / mon), '25 GB' (18,50 € / mon), and '10 GB' (14,50 € / mon). A 'Bite Mega+ 200 GB' plan is also shown at 21,50 €. An additional 'Stationary router' is available for 1 €.

Plan	Price
200 GB	21,50 € / mon
25 GB	18,50 € / mon
10 GB	14,50 € / mon
Bite Mega+ 200 GB	21,50 €
Stationary router	1 €

Front-end design and development for a leading MNO website in the Baltic states (\pm 400 mln EUR annual revenue). Our assignment was to improve UX and optimize customer conversion. We researched existing website use, prototyped and tested new UX-design hypotheses and provided a streamlined UI and Front-End development for the promo, eCommerce and Self-Care parts of the website arriving at a much more robust solution for the customers and the business.

The image displays two screenshots of the Bite mobile website. The left screenshot shows the 'Choose how much internet data you need' section, featuring five data plan options: 'Best offer' (Unlimited), 30 GB, 8 GB, 4 GB, and 1,5 GB. The right screenshot shows a similar section with the same five plan options. Both screenshots include a 'Bite Unlimited' plan card for Latvia, which includes details like talk/text in Latvia (infinity), talk to Europe (500 min.), data in Europe (25 GB), and data in the Baltics (infinity). The card also highlights 'Unlimited internet in the Baltics'. At the bottom of both screenshots, there are sections for 'Additional plans' and 'All plans include'.

Plan name	Data in Latvia	Talk & Text	Data in Europe	Talk to Europe
Local 100	7,90 € / mo.	100 MB	∞	100 MB
Local	7,50 € / mo.	0,10 € / MB	∞	—

All plans include

- Screen insurance (1 month)
- Free antivirus (3 months)

“ Vide Infra helped us significantly improve UX design of some of the key elements of our e-store and product selectors as well as arrive to a much better visual outlook of the website. I liked that the design they offered was backed by serious research and careful task examination. Through the UX planning, prototyping, design and front-end development phases Vide Infra showed proactive and result oriented attitude.”

Renārs Neimanis
Head of E-Channel Development, Bite

Bite Self-Care “My Bite”

The image displays four screenshots of the 'My Bite' self-care system interface, illustrating its features:

- Screenshot 1:** Shows a promotional offer for 'Bite Neierobežots -30%' with a smartphone image and a green button labeled 'Pieteikies'.
- Screenshot 2:** Shows another promotional offer for 'Bite Neierobežots -30%' with a flamingo habitat image and a green button labeled 'Pieteikies'.
- Screenshot 3:** Shows a detailed view of a service plan, including tariff plan (Bite unlimited), costs (350,99 €), and usage statistics (Internets, Zvani, SMS) over time.
- Screenshot 4:** Shows a grid of various devices available for financing, such as Samsung Galaxy A52s 5G, Samsung 43" UE43TU092UXXXH, Asus ZenBook UX425EA-BM057, and Samsung Galaxy S21 5G, each with financing terms and payment options.

Our assignment involved UX design and front-end development for Bite's Self-Care system "My Bite". Bite customers may manage there their subscriptions, pay for the services, analyse data spend, acquire new products and services. Corporate customers may create and manage agreements, review spending and subscribe to the latest products and services.

Janssen CarePath Program

The Janssen CarePath program interface consists of three main sections:

- Dashboard:** Shows a summary of patient notifications and bookmarked patients.
- Message Inbox:** Displays a list of messages from the Janssen CarePath team regarding benefit delays and returns.
- Patient List:** Provides a detailed view of patient enrollment status, product information, and claim history.

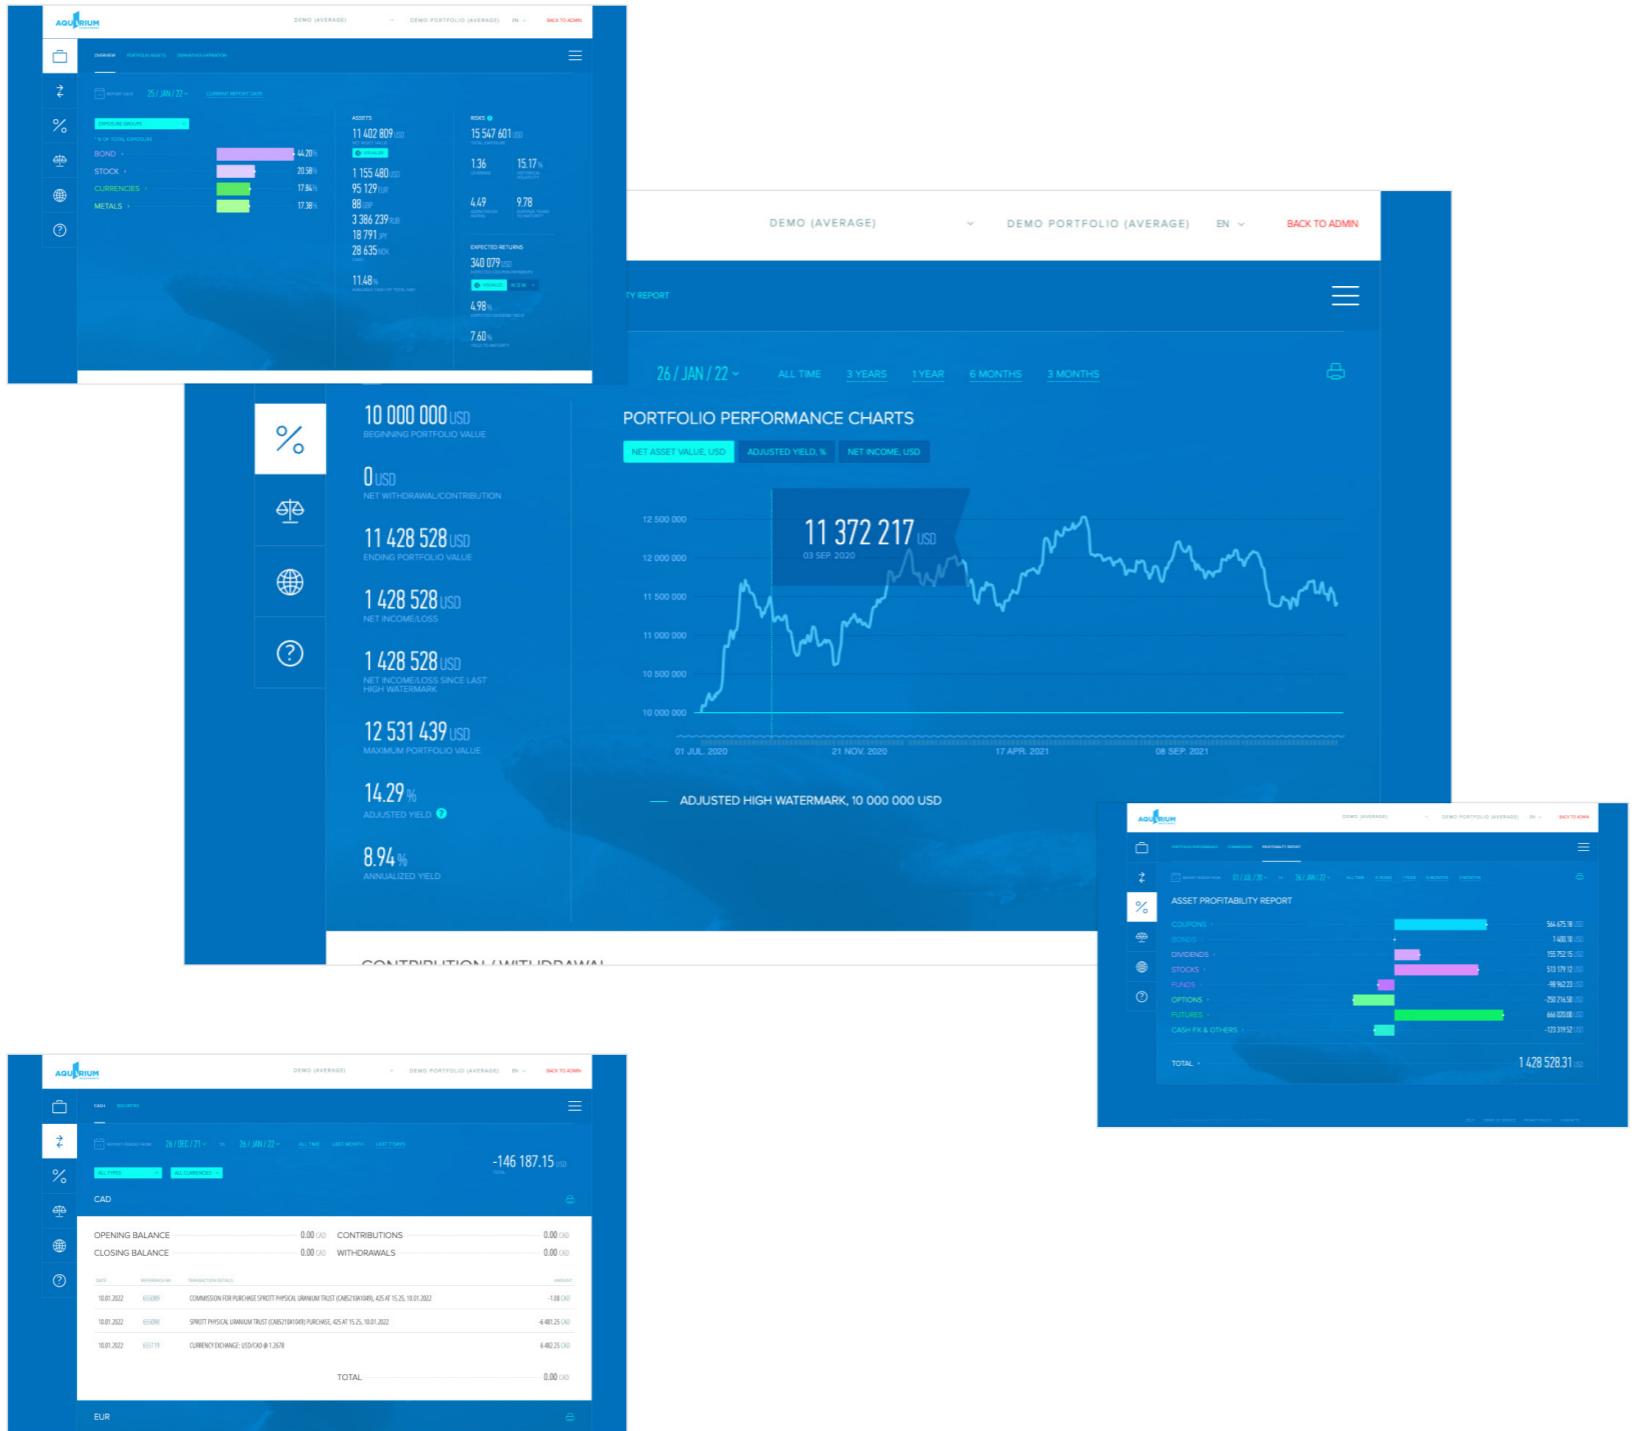

The Janssen CarePath Savings Program interface includes:

- You Savings Program:** Features a card image and enrollment status information.
- Card Information:** Displays enrollment details, benefit period, and remaining available benefit.
- My Rebate Request Status:** Shows a list of rebate requests with their status and processing details.

Janssen CarePath is a financial support program by Janssen, a Johnson&Johnson company. Together with the Intechnic agency, we implemented an easy to use and inspiring UI design, which allows both the patients and the healthcare professionals to easily navigate and apply for various financing options to acquire Janssen high-specialized and expensive medications.

AQRM Investor Portfolio Analysis System

A complete digital product development for an investment management company. The product accumulates data about customers various assets from different accounts and allows to analyse portfolio performance, composition and planned yield. The system also provides emulation of adding multiple assets to the portfolio. We provided both the original UX and UI design and implemented the front-end and back-end of the solution.

RD Electronics

Front-End design and development for one of the largest consumer electronics eShops in the Baltic states (\pm 100 mln EUR annual revenue). Our assignment was to improve customer acquisition, conversion, and retention by superior UX design. Based on the existing website analysis and by deploying best-in-class consumer research, we enhanced those website features that worked for the customer the best, eliminated those that didn't, and introduced new features that improved the customer experience. As a result, the website offers a rich and intuitive experience for various user types, has practical and required by the users features, which translate into conversion growth by over 25%.

+25.6%
increase in conversions

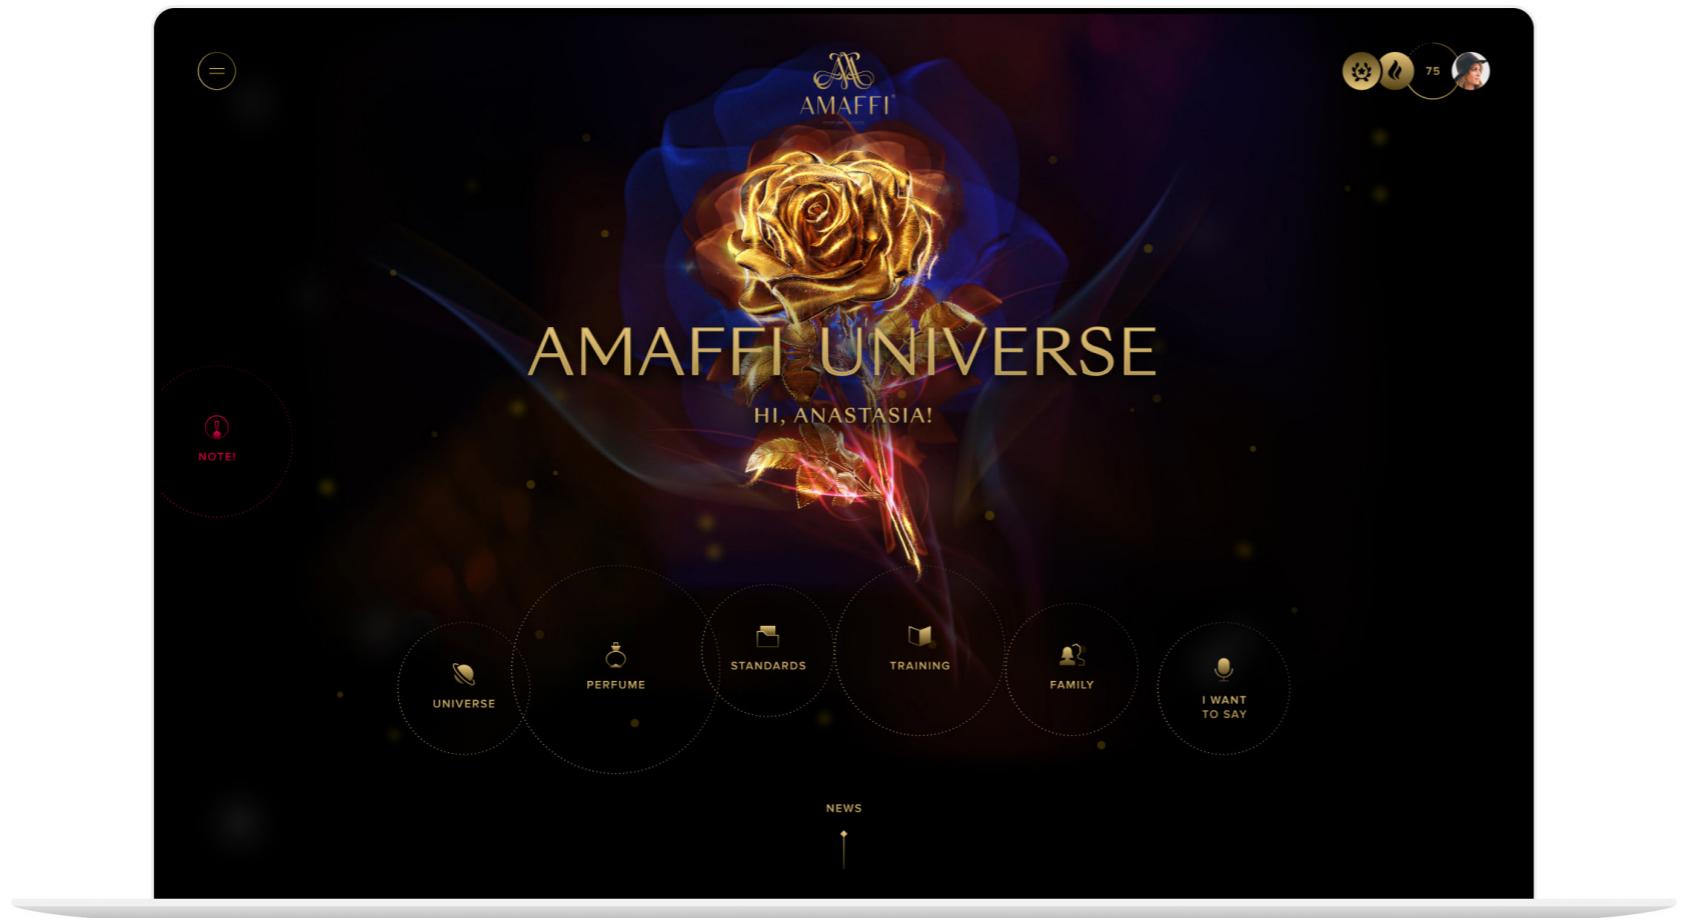

Case study

The screenshots illustrate the Ryerson eShop's user interface, designed to facilitate metal ordering. The top-left view shows a search results page for 'Stainless Steel Round Tube', featuring a sidebar with filters for grade, diameter, and thickness, and a main area displaying three product cards with details like grade (304L), dimensions, and price. The top-right view shows the homepage with a prominent image of metal pipes and a search bar, along with a call-to-action button 'Order metal online, anytime.' The bottom view shows a detailed product page for 'Carbon Plate', where users can input specific dimensions and processing requirements to get a quote.

Front-End design for a corporate website and eShop of one the largest metal producers in the USA (\pm 3.5 bil USD annual revenue). Implemented in co-operation with Intechnic agency, our assignment was to provide an inspiring UI design for the corporate part of the site. Most importantly, for the rich and sophisticated metal ordering system and customer self-care.

Coming soon

Amaffi Corporate Portal

The portal allows Amaffi employees to be updated about company policy changes, news, learn and test their product knowledge, as well as to be in touch with colleagues and with the company's brand spirit. We implemented a unique UX design and developed the solution.

The screenshots illustrate the user interface of the Amaffi Store. The home page features a large banner with a red perfume bottle and a grid of smaller bottles. The checkout page shows a summary of the purchase with detailed product information and payment methods. The shopping bag page provides a clear overview of the selected items and their details.

A complete eCommerce solution for an ultra-luxury perfume house. Our assignment was to develop UX and visual design that matches the high status of the brand, simultaneously providing a seamless and effortless experience for the inline shoppers. Besides the front-end design and development, we have integrated the Sylius eCommerce platform, shipping, payment and tax systems into the back-end.

[Visit website](#)

The screenshots illustrate the platform's features:

- Portfolio Overview:** Shows the total portfolio value (224,500,000 RUB), growth rate (+12.25%), and overall portfolio income (+24,500,000 RUB). It includes a timeline chart from 2016 to 2020.
- My Portfolio:** Details for two funds:
 - АКЦЕНТ ФОНД I – РЕНТАНЯ ТОРГОВАЯ НЕДВИЖИМОСТЬ:** Value up 10.25% to 110,000,000 RUB, with 100,000 shares.
 - АКЦЕНТ ФОНД IV – МОДЕРНИЗАЦИЯ КОММЕРЧЕСКОЙ НЕДВИЖИМОСТИ:** Value up 12.66% to 114,500,000 RUB, with 100,000 shares.
- Recommended Funds:** Details for two funds:
 - АКЦЕНТ ФОНД I – РЕНТАНЯ ТОРГОВАЯ НЕДВИЖИМОСТЬ:** Value up 10.25%, Core+ strategy, 15-22% risk, 30 million recommended investment.
 - АКЦЕНТ ФОНД IV – МОДЕРНИЗАЦИЯ КОММЕРЧЕСКОЙ НЕДВИЖИМОСТИ:** Value up 12.66%, Value-Added strategy, 18-25% risk, 30 million recommended investment.
- Assets:** Shows total assets of 12,250,000,000 RUB, with specific asset details:
 - Складской комплекс ПНК-Валищево (ТК Деловые линии):** Current value 1918,750,000 RUB, monthly rent 165,600,000 RUB, 75.00% occupancy.
 - Логопарк «ПНК-Валищево», корпуса 7,8,11:** Current value 1918,750,000 RUB, monthly rent 165,600,000 RUB, 50.00% occupancy.
- Investment Opportunities:** Shows the investment strategy for the funds.
- Investment Strategy:** Shows the investment strategy for the funds.

Accent. Investment management platform

A self-care system where investors are capable of tracking performance of their portfolio with Accent Capital using series of intuitive and graphic visual instruments and reports, acquiring and selling shares, as well as being in touch with the company.

The screenshots illustrate the Transact Online platform's user interface. The left screenshot shows the 'Accounts' page, which lists various accounts with their names, account numbers, linked cards, pending transactions, and balances. It also includes sections for transfers between accounts and frequent recipients. The right screenshot provides a detailed view of a specific account, showing its balance, a monthly transaction volume chart, and a breakdown of account types and their respective balances.

UX/UI design and front-end development for a prominent EU/US-based payment service provider and a bank. Our task involved studying and analyzing how Transact customers use their products and developing a unique UX design that matches their needs — corporate card management, regular transactions, etc.

Case study

British Airways Cargo / IAG Cargo

The screenshots show the following sections:

- Welcome Screen:** Displays a large black banner with "WELCOME JOHN". Below it, a circular badge shows "13,808 POINTS — DECEMBER" and "SILVER TIER". It also features a "JOHN SNOW" profile icon and the number "13".
- Your Latest Statement:** A box titled "YOUR LASTEST STATEMENT" with "DECEMBER IS AVAILABLE TO VIEW" and a "VIEW NOW" button.
- Rewards Section:** A box titled "REWARDS" with a "REDEEM REWARDS" button. It lists "FLIGHTS", "HOTELS", and "CARGO CREDIT" options, each with a "REDEEM ON FLIGHTS", "REDEEM ON HOTELS", and "REDEEM FOR CREDIT" button respectively.
- Statements Section:** A box titled "STATEMENTS" showing a table for "DEC 2021" with columns "EARNED", "REDEEMED", and "CLOSING BALANCE". The table shows "+ 606 POINTS", "0 POINTS", and "13,808". Below it is a "ALL STATEMENTS" table with columns "DATE", "EARNED", "BONUS POINTS", "REDEEMED", and "CLOSING BALANCE".

British Airways' cargo business, IAG Cargo, rewards its freight forwarders with bonus points for sending cargo with the company. The forwarding companies may manage their team in the system, view balance points, and redeem them for hotel or cargo vouchers as well as flights to various destinations. The system is integrated with the BA's back office for data on bonus balances and client data.

British Airways

We've been an Approved Supplier for web application development for British Airways globally for almost two decades and provided numerous solutions for trade communication automation, customer loyalty, and key accounts management for US, European, Middle East, LATAM, and APAC markets.

Food Compliance

Food Compliance International is the leading food law consultancy in the world. The company helps multinational companies in exporting food and customer care products. We've created a winning website strategy, promo texts, and stunning creative design and technical implementation to place the company at the forefront of the competition.

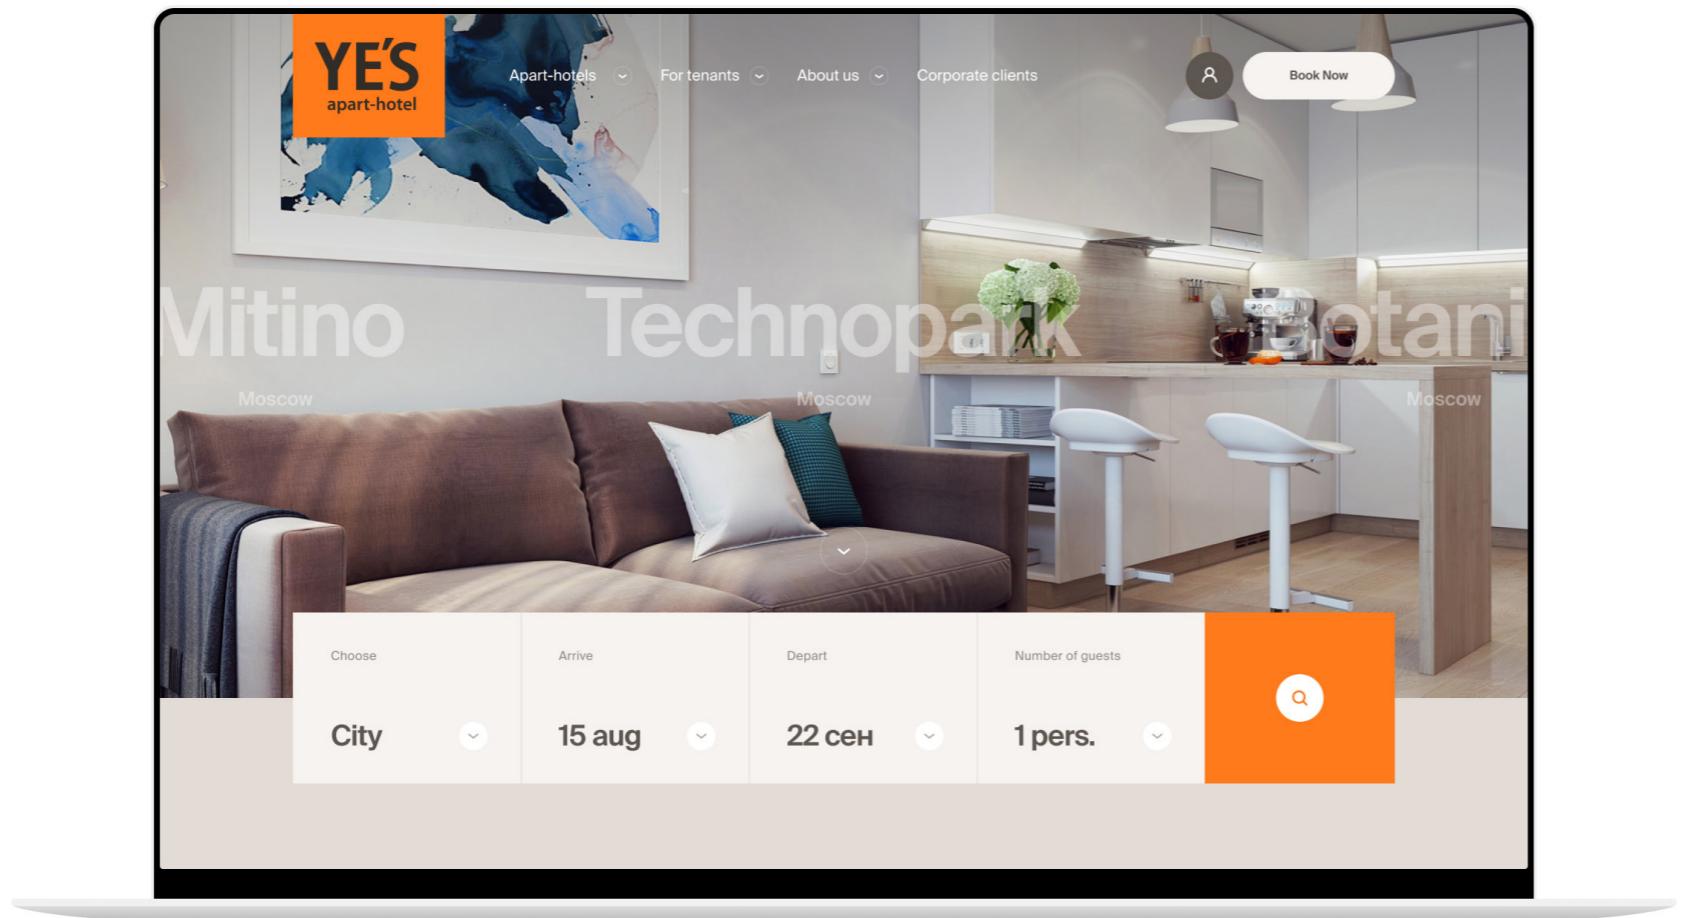

Case study

An extensive corporate website for an investment and development holding. Our assignment included communication strategy development, copywriting, video and photo production and, of course, top-grade website production.

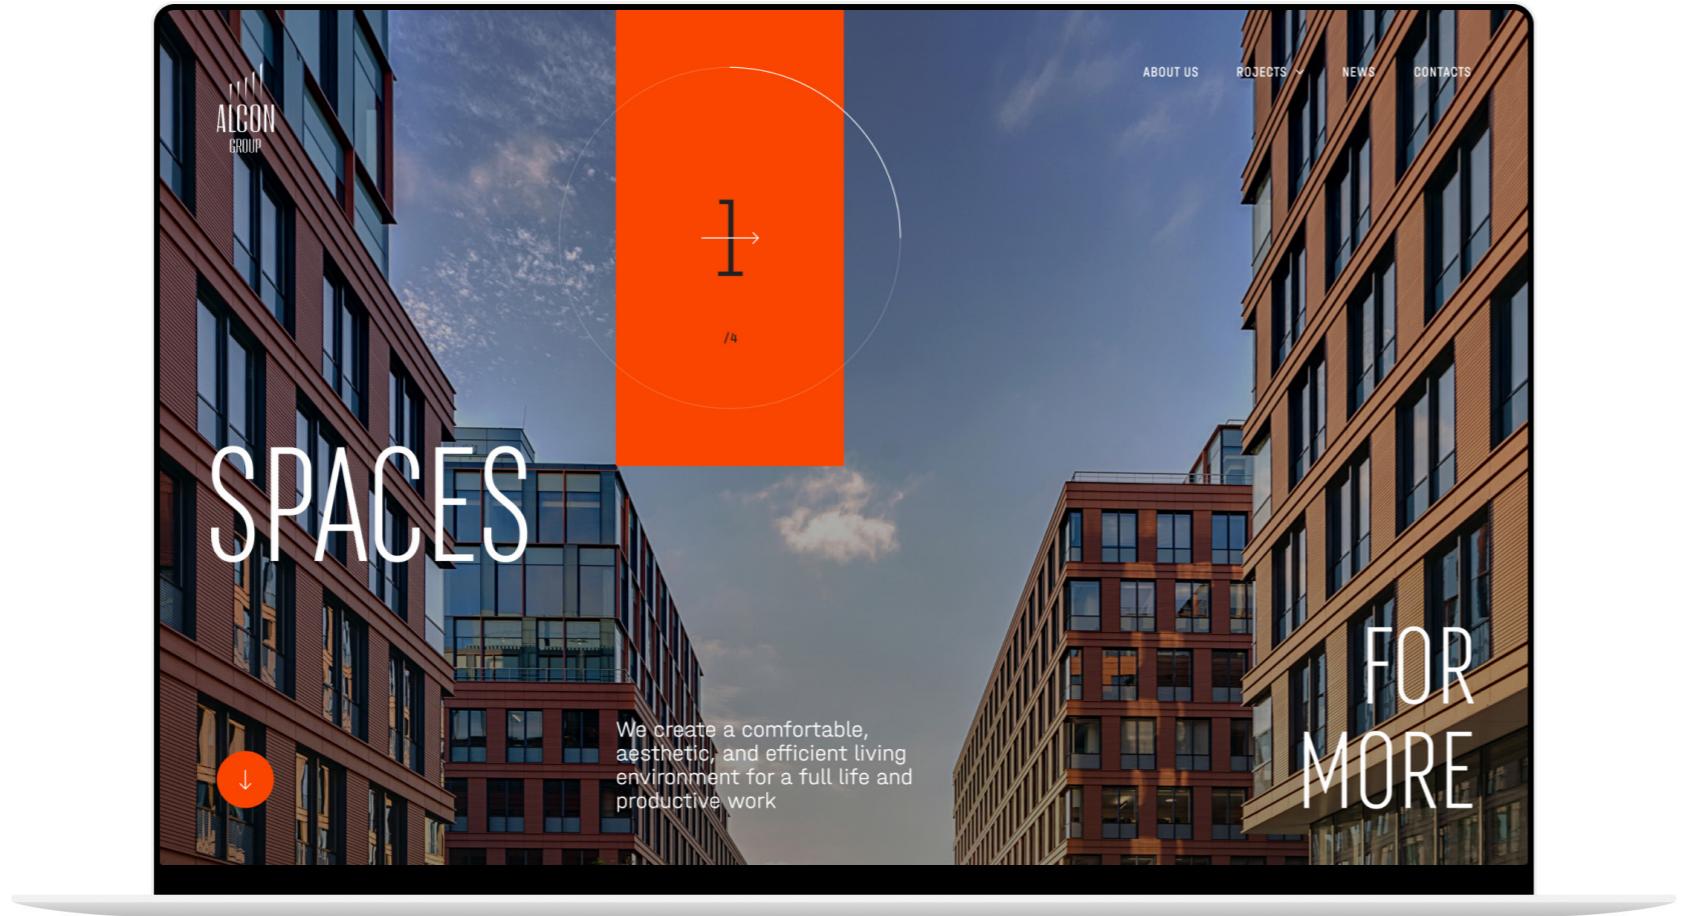

[Visit website](#)

YE'S is a large international apart-hotel network. Targeted to long-term guests and business clientele the company offers cosy suites designed to feel and act like home coupled with high-quality hotel services. Our task was to develop a website that conveys every detail of living experience as well as build an effective product presentation and booking functionality.

Case study

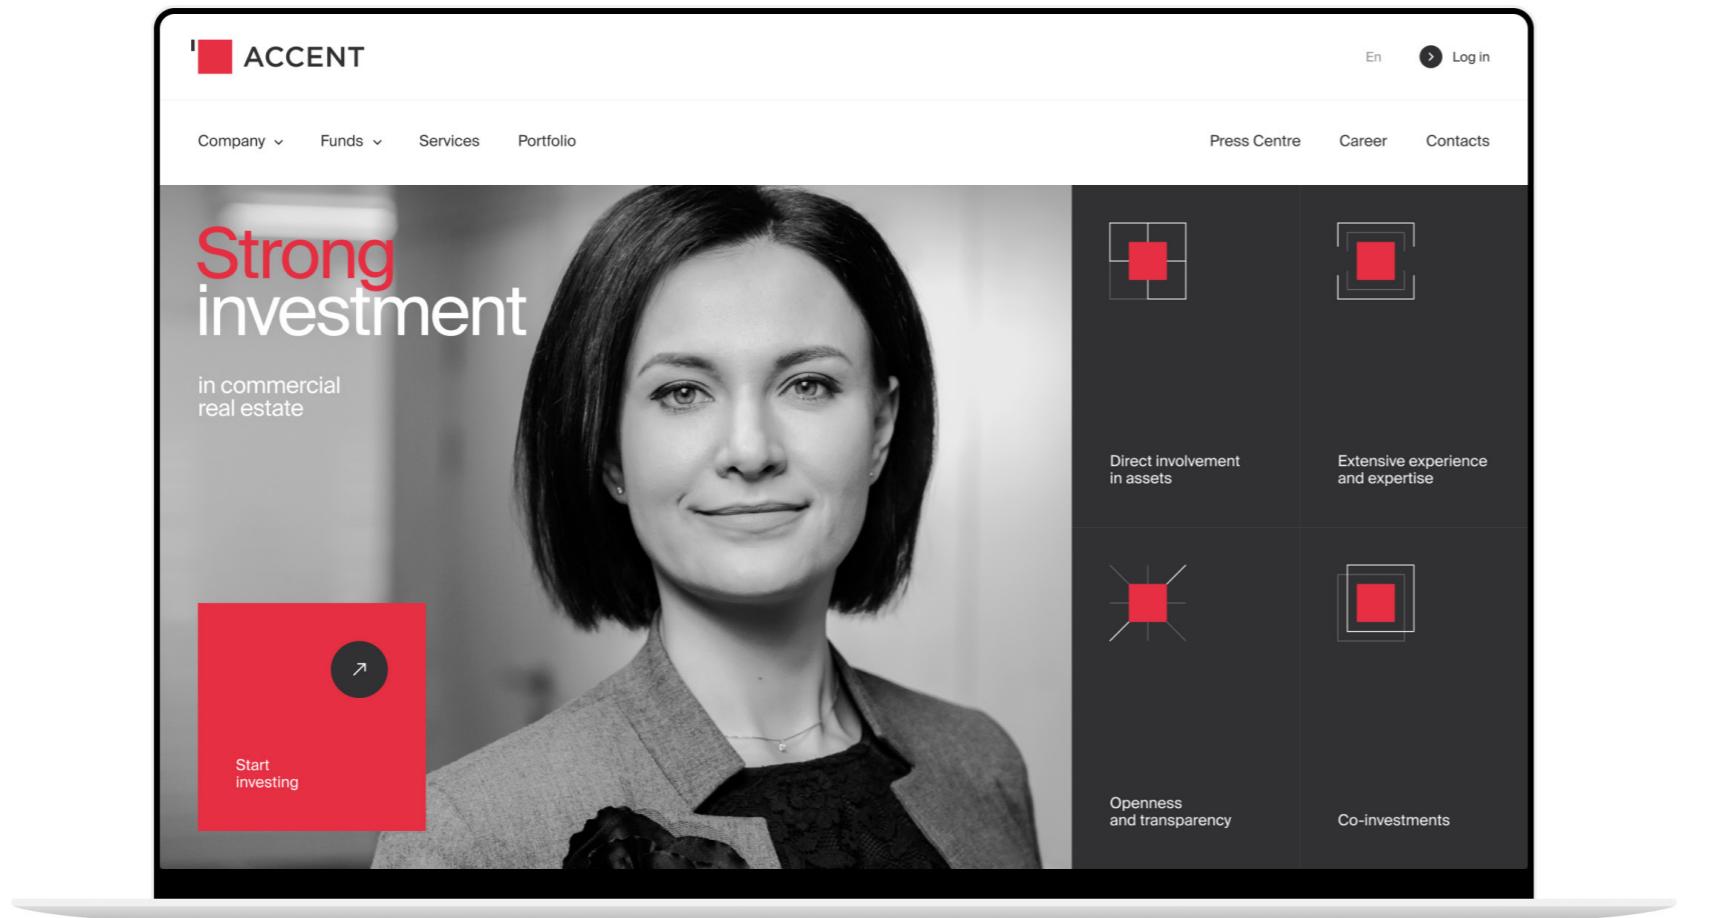

An innovative and vivid corporate website for a Moscow-based real estate developer. The website depicts the company's values, strategy, projects, and management in an original and effective manner, creating a unique and remarkable impression.

Case study

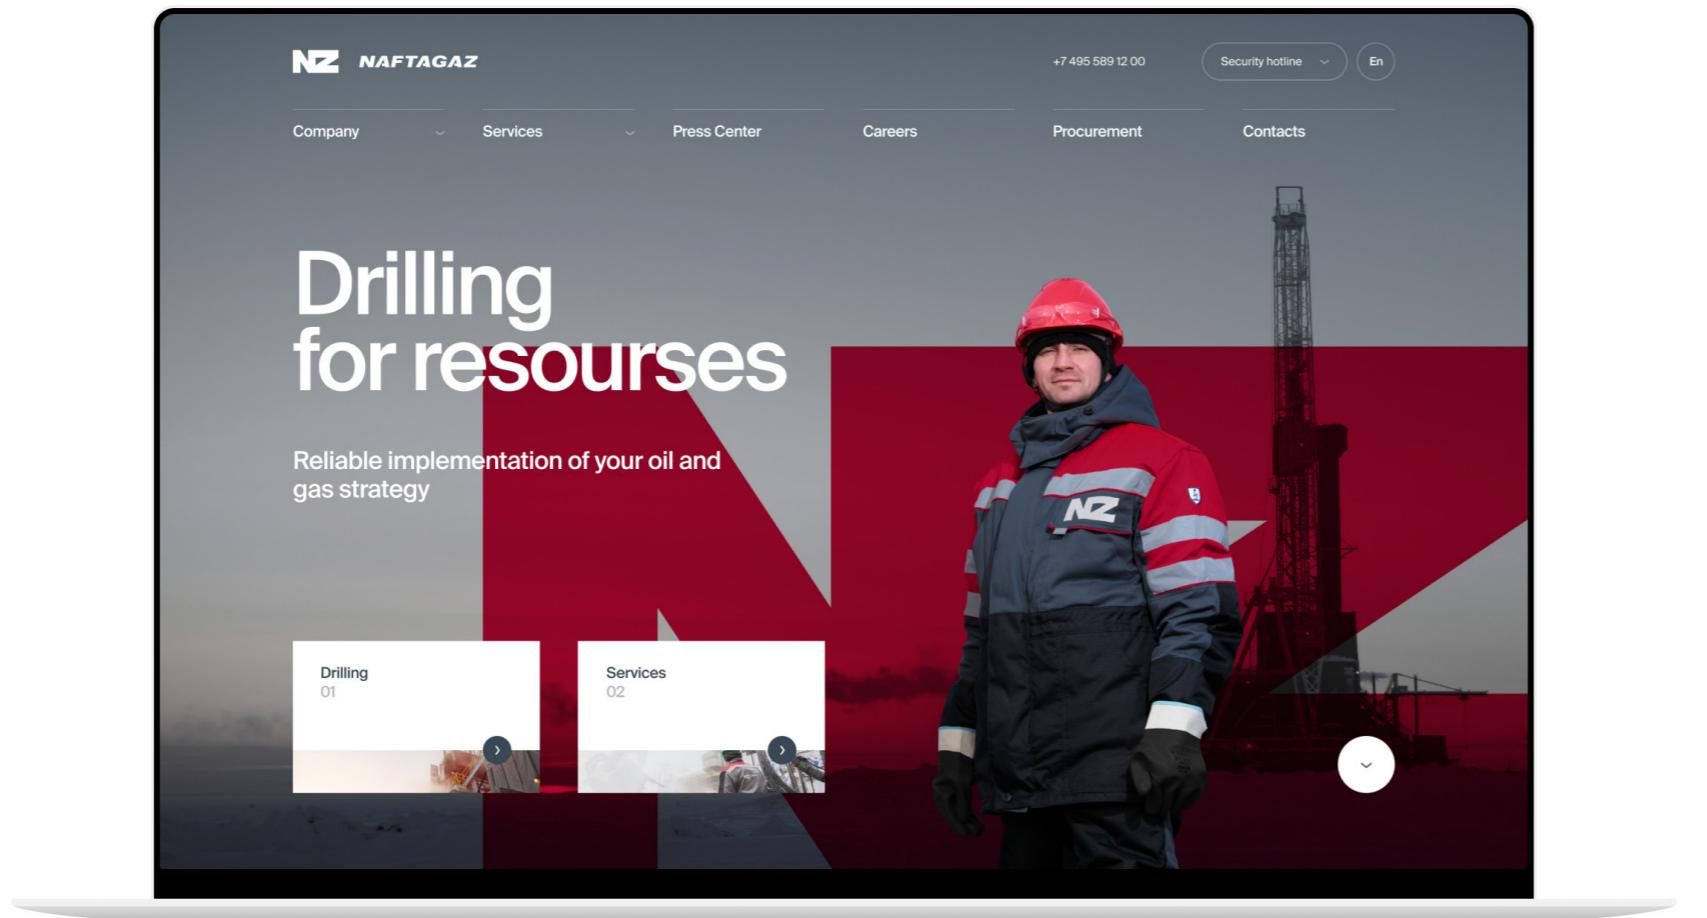

Accent. Corporate website

A complete communication solution for a prominent Russian investment management company. Our task involved developing a website strategy based on team interviews and category research, all the texts, UX and visual design and implementing a solid modern front-end.

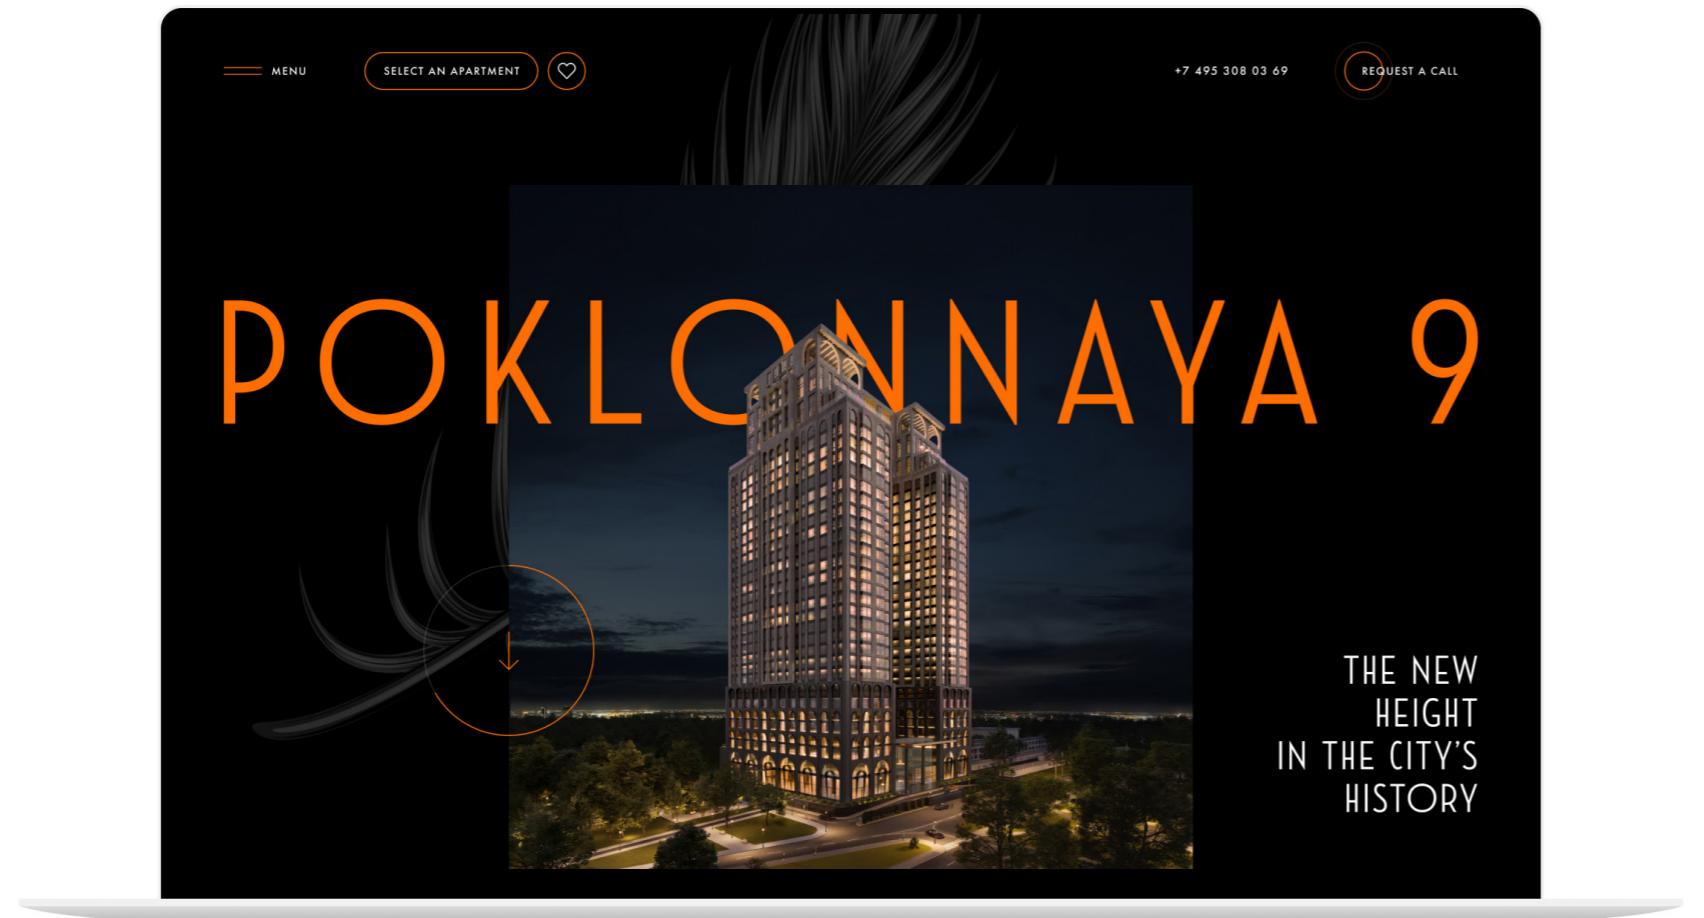

Case study

An effective corporate website for an oil and gas company, creatively revealing the company's image as a technological and highly organized partner, a caring employer, and a modern, socially responsible enterprise.

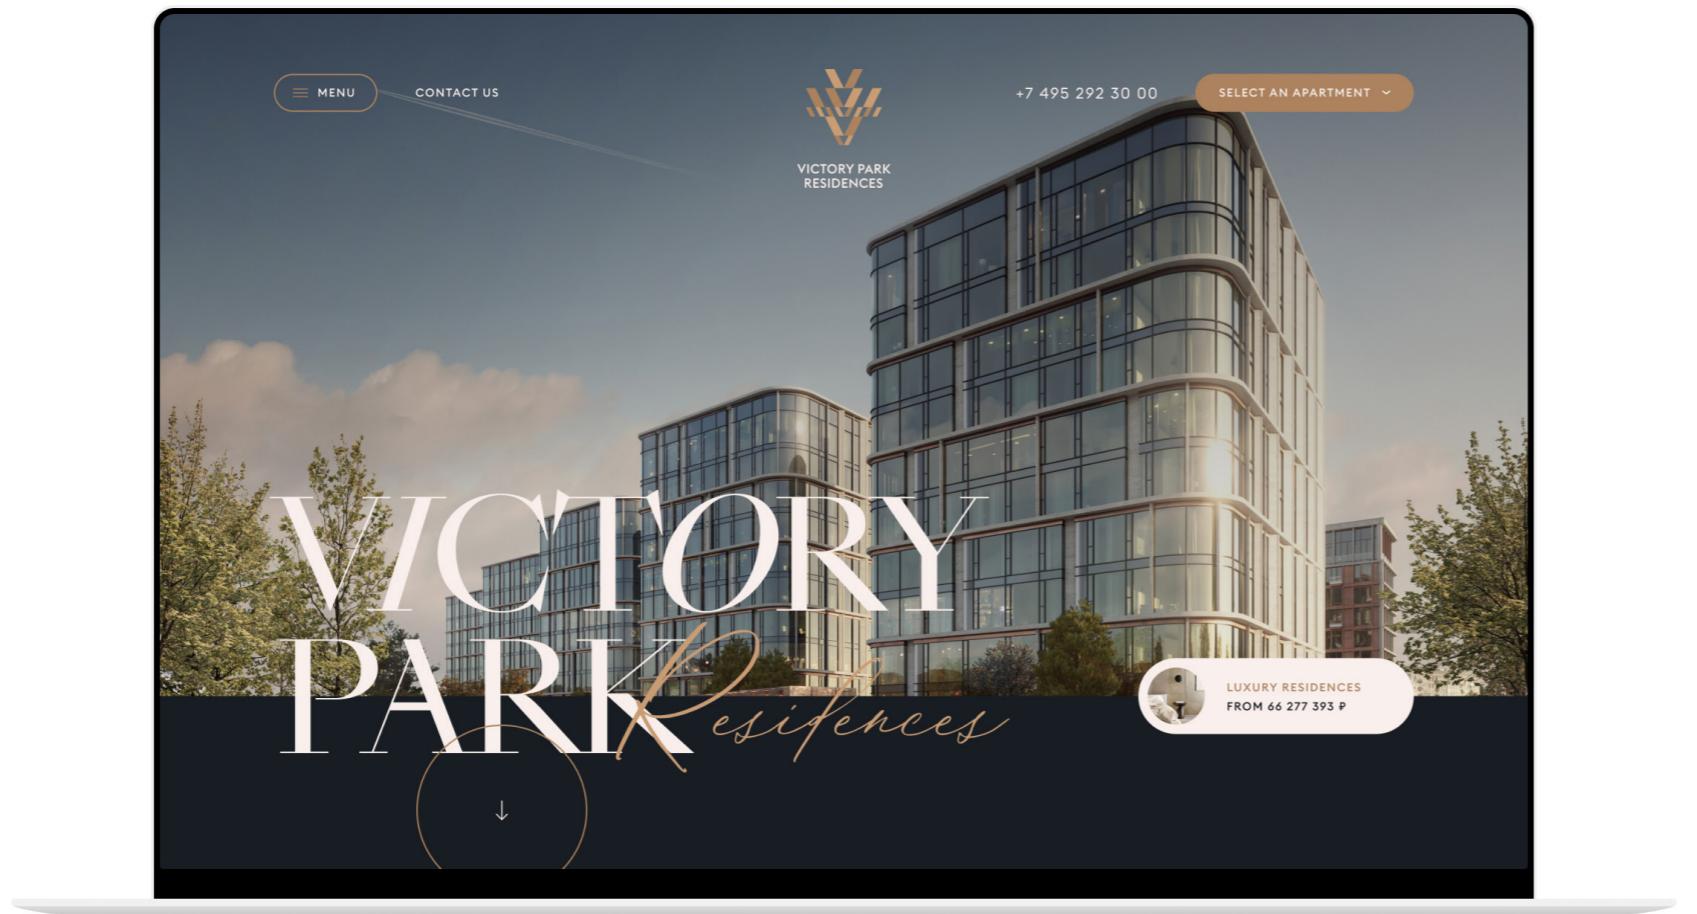

**Case study**

Poklonnaya 9

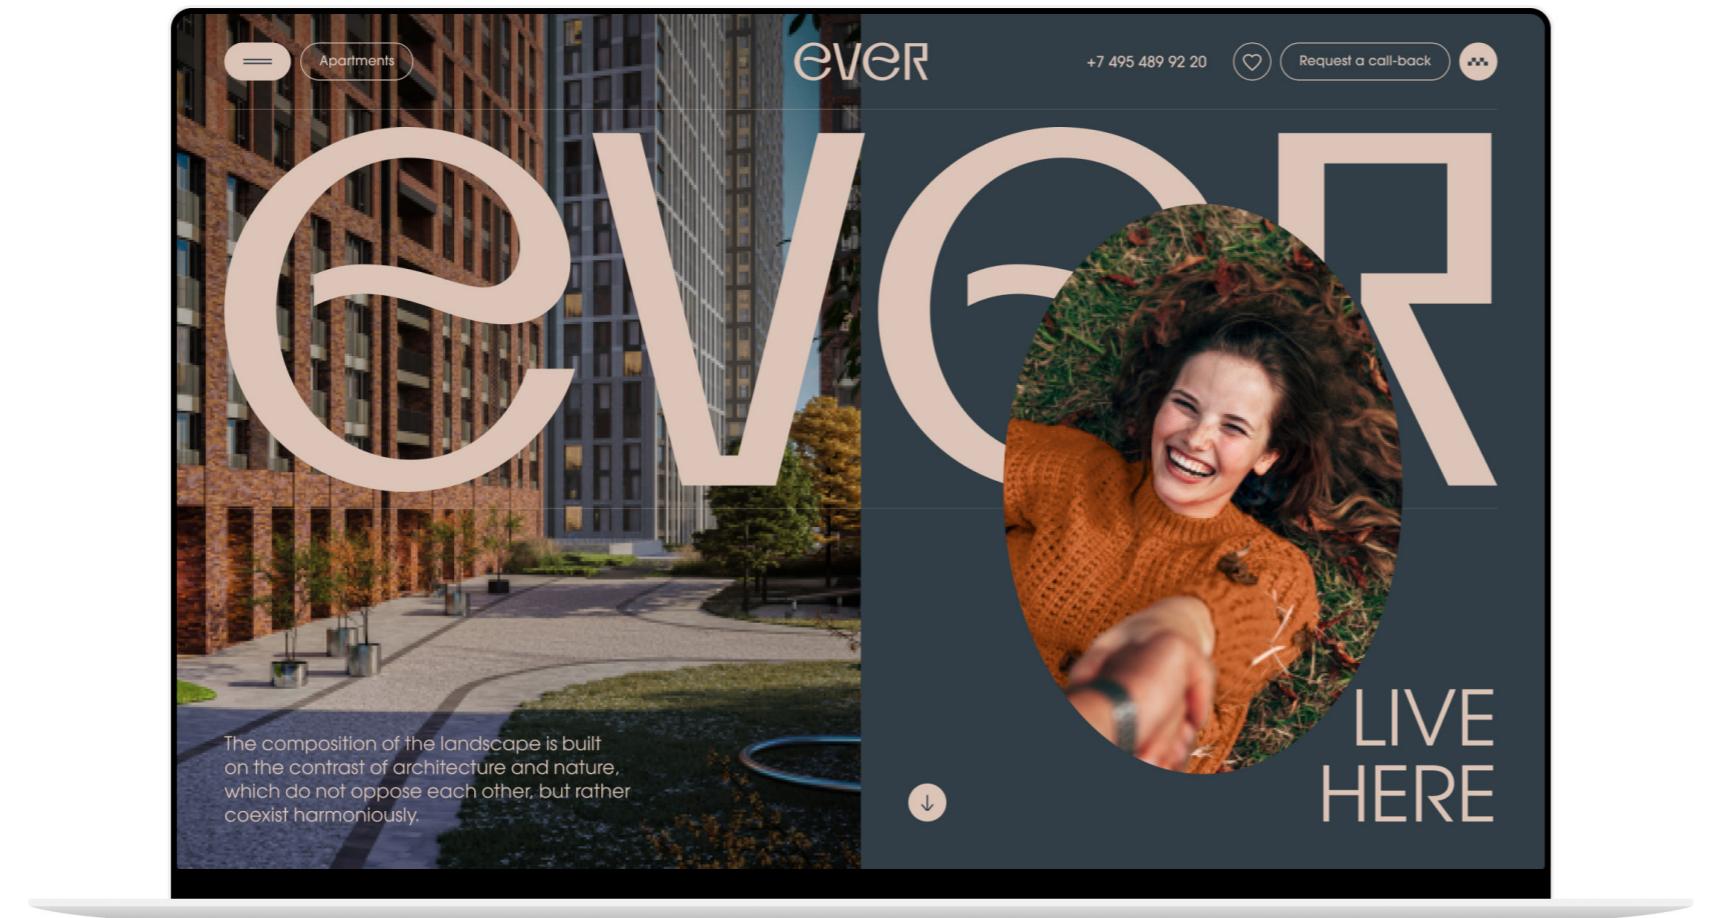

An impressive, rich and exciting website for a premium real estate project near Victory Park in Moscow. Every section and page element are given a special attention and are implemented with unique visual and interactive design ideas.

Victory Park Residences

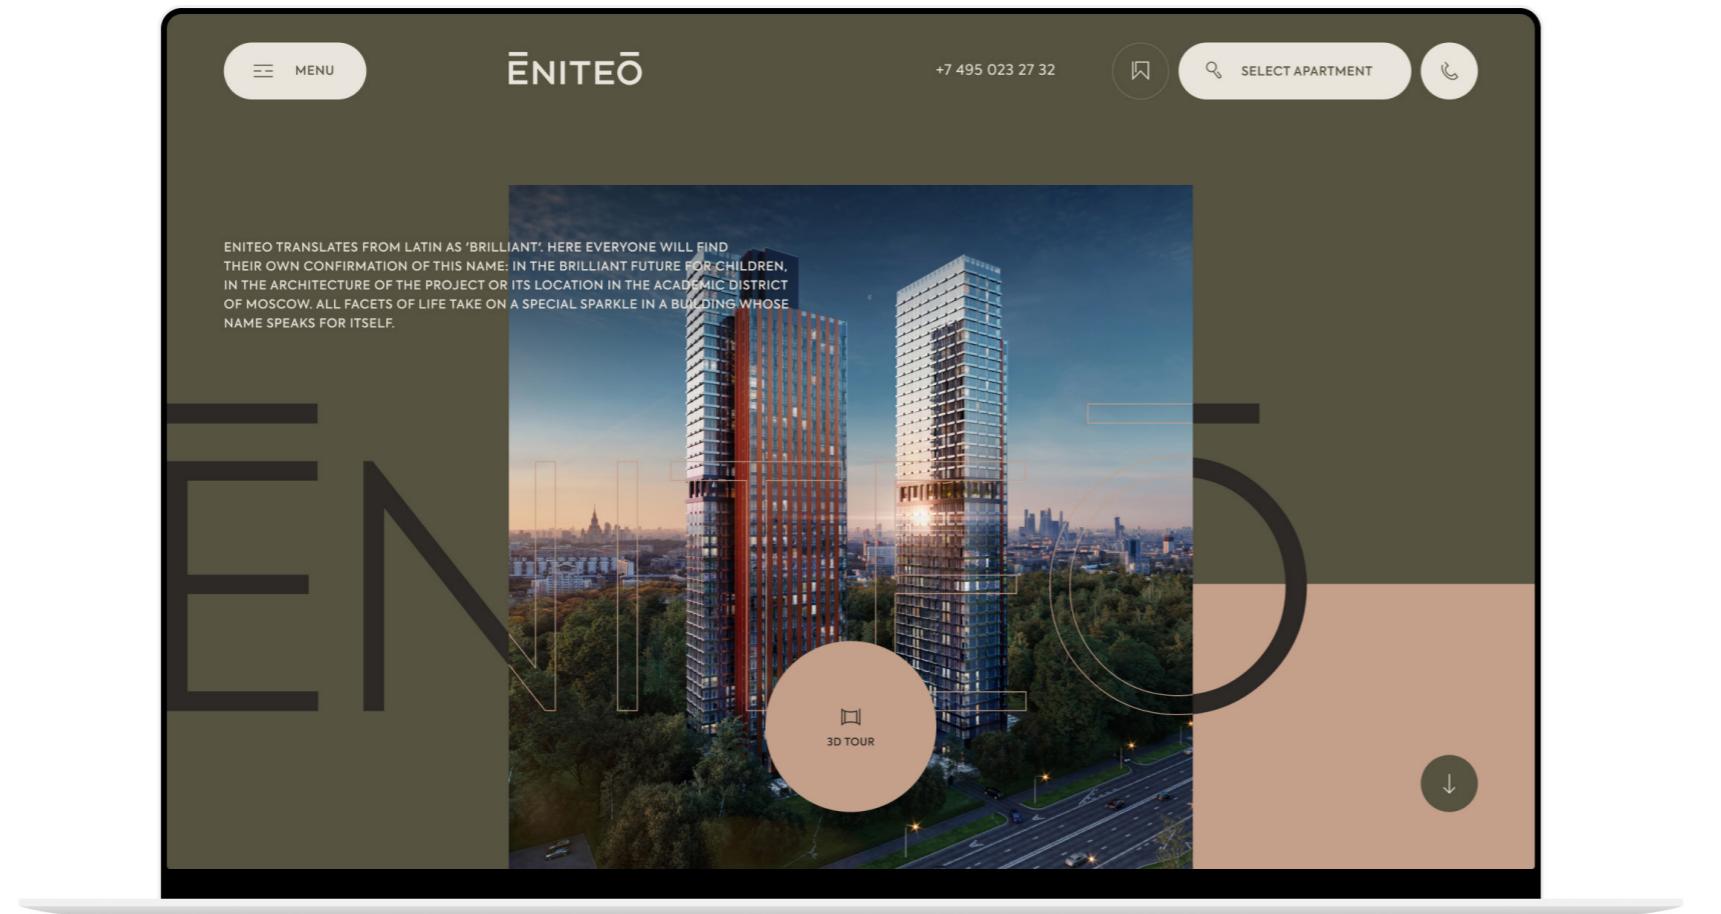

Victory Park Residences is an elite residential complex located in the prestigious Moscow's district adjacent to Victory Park. The complex is composed of a few small apartment buildings with a rich infrastructure that includes a superbly designed inner territory, and an array of shops and restaurants. Our task was to present the luxury offering with required elegance, technological advancement and visual impact.

Ever is a dynamic and vibrant project that offers its inhabitants a versatile and original inner space and unique facade design. Our goal was to convey the emotions of living in the urban environment and enjoying your small private natural playground and a wide array of inner infrastructure options.

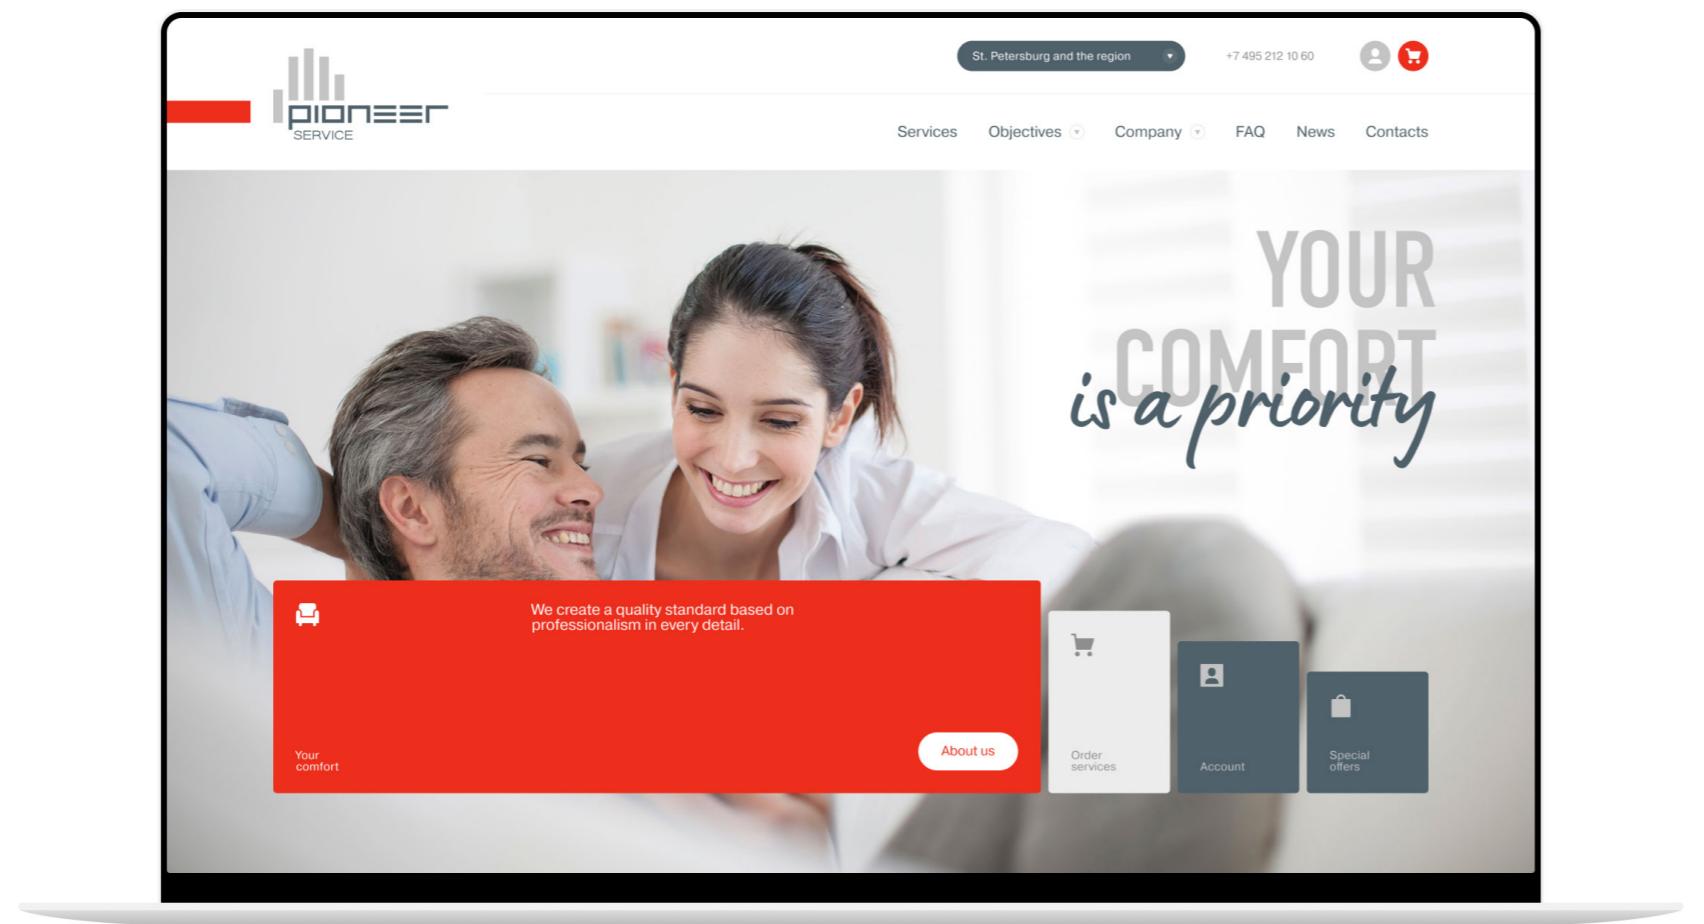

[Visit website](#)

A highly modern and advanced yet elegant and easy to use website for a residential complex of the same qualities in Moscow. The website features the immersive and elaborate presentation of the various complex amenities as well as a unique visual apartment selector.
